

Your Pump & Process Solutions Experts

Municipal Line Card

Hayes Group is the Northeast's largest and oldest industrial, commercial and municipal pump distributor with offices from Maine to New Jersey. We represent an extensive range of manufacturers and suppliers for equipment used in metering, transferring, and filtering fluids. With over 40 application specialists on staff and partnerships with the leading pump and flow solution equipment manufacturers in the industry, we are proud to be your best resource for pumping expertise in the Northeast today - New Jersey, New York, Connecticut, Rhode Island, Maine, Vermont, New Hampshire, and Massachusetts.

 USA <i>The Pump People</i> Self-priming, solids handling, submersible and engine driven pumps, packaged lift and booster stations. www.grpumps.com	 Horizontal and vertical water supply, wastewater treatment, solids handling and flood control pumps. www.pentair.com	 Horizontal, submersible, vertical dry-pit and vertical wet-well chopper pumps, Triton screw centrifugal pumps, Rotamix hydraulic mixing systems. www.chopperpumps.com	 Lutz-JESCO America Corp. USA Dosing and chemical feed pumps, custom chemical feed systems, dry feed, measuring and control equipment. www.lutzjescoamerica.com
 WASTE WATER Solutions Liquid/solid separation, headworks equipment, sludge treatment, septage receiving stations, septage, gully and grit waste treatment. www.huber-technology.com	 Liquid and dry polymer mixing and dry chemical feed systems, bulk solids handling for material process and conveyance systems. www.polymersolution.com	 Pre-cast submersible pump station structure with integral valve vault package. www.oldcastleinfrastructure.com	 ENGINEERED Submersible grinder and solids handling pumps, low pressure sewage systems, controls, basins and station accessories. www.zoellerengineered.com
 Corrosion resistant fiberglass reinforced pumps for pumping acids, brines, caustics, bleaches, solvents, seawater and waste. www.cecoenviro.com/fybroc	 Odor control technologies including chemical scrubbers, biotrickle filters, carbon adsorption towers, ammonia recovery systems and VOC stripping systems. www.johncockerill.com	 Progressive cavity pumps for sludge and polymer, channel grinders and screens. www.moyno.com	 Top and side entry rotating mixers, agitators and static mixers. www.chemineer.com
 Single, double and split mechanical seals for pumps, compressors, turbines and mixers. www.johncrane.com	 Complete modular cogeneration systems with full responsibility including maintenance. www.gruppoab.com	 Part of the Atlas Copco Group Severe duty progressive cavity pumps, x-lift-in-place pump maintenance and biogas/biofeed systems. www.wangen.com	 Centrifugal, submersible and vertical turbine pumps, control panels, variable frequency drives, and water booster systems. www.goulds.com
 Monitoring and managed SCADA services for complete system monitoring, control and automated notifications to end-user. www.123mc.com	 Air operated double diaphragm pumps, parts and accessories. www.sandpiperpump.com	 End suction, double suction, vertical mixed flow and horizontal split case pumps. www.torishimapump.com	 Service & Repair Repair of most design pumps, re-rate and evaluation of design conditions, field repair and start-up services. www.hayespump.com
